RE: Comment on the Property Specific Requests General Plan Amendment/SEIR for Borrego Springs

C2-1

At its January meeting, the Borrego Springs Community Sponsor Group unanimously voted to express its support and agreement with overwhelming community opinion that both DS24 and DS8 should not have changes in General Plan designations to increase density of dwelling units allowed on those parcels.

C2-2

County staff has heard from Borregans on these Property Specific Requests and staff reports all provide the reasons why the Borrego Sponsor Group opposes any changes to the current General Plan designations for these parcels.

Sincerely,

Rebecca Falk, Chair, for the Borrego Springs Community Sponsor Group

Responses to Letter C2, Borrego Springs Community Sponsor Group

- C2-1 This comment provides a brief introduction and states the Borrego Springs Community Sponsor Group voted unanimously to oppose the proposed project, which includes changes in land use designations to allow increased density within PSR Analysis Areas DS24 and DS8.

The County acknowledges the comment. No further response is necessary.

- C2-2 This comment states the Community has provided input to County staff regarding opposition to the proposed project's proposal to change current land use designations.

The County acknowledges the comment. No further response is necessary.
