I9-1

I am writing in response to your notice of the General Plan Amendment SEIR and PDS in areas of San Diego County. The General Plan has just recently been completed and approved. The people voted not to have leapfrog development in the open spaces of the County. This sounds like just the opposite, housing developments are to be located closer to towns or cities where people can have access to transportation, schools and grocery stores.

I9-2

Southern California has a shortage of water supply, electricity, over population, road congestion, air pollution and, fire danger for the building in of housing developments in remote locations. Crowding out the farms, Agriculture, Mineral resources and animal habitat.

I9-3

I do not think this General Plan Amendment is in the best interest of the people of San Diego County, so my opinion is negative, thank you for the public review letter.

I9-1 This comment provides introductory remarks regarding the commenter's understanding of the County's General Plan and impression of the Proposed Project as to where new development should be located.

This comment does not raise issues regarding the adequacy of the Draft SEIR, therefore, no further response is necessary.

I9-2 This comment makes general statements regarding land development issues in Southern California.

This comment does not raise issues regarding the adequacy of the Draft SEIR, therefore, no further response is necessary.

I9-3 The County acknowledges the commenter's opposition to the Proposed Project.
