

APPENDIX F

This page intentionally left blank.

General Plan Policy		Climate Action Plan Strategy										
		T-1: Reduce Vehicle Miles Traveled	T-2: Shift Towards Alternative Modes of Transportation	T-3: Decarbonize On-road and Off-road Vehicle Fleet	T-4: Invest in Local Projects to Offset Carbon Emissions	E-1: Increase Building Energy Efficiency	E-2: Increase Renewable Electricity Use	SW-1: Increase Solid Waste Diversion in the Unincorporated County	W-1: Reduce Potable Water Consumption	W-2: Increase Rainwater Use	A-1: Support Conversion of Agricultural Equipment to Alternative Fuels	A-2: Increase Carbon Sequestration
LU – 11.6	Office Development		●									
LU – 12.4	Planning for Compatibility	●										
LU – 16.3	New Waste Management Facilities						●					
COS – 1.1	Coordinated Preserve System	●										
COS – 1.2	Minimize Impacts	●										
COS – 1.3	Management	●										
COS – 1.4	Collaboration with Other Jurisdictions	●										
COS – 1.5	Regional Funding	●										
COS – 2.1	Protection, Restoration and Enhancement	●										
COS – 2.2	Habitat Protection through Site Design	●										
COS – 3.1	Wetland Protection	●										
COS – 3.2	Minimize Impacts of Development	●										
COS – 4.1	Water Conservation				●	●			●	●		
COS – 4.2	Drought-Efficient Landscaping								●	●		
COS – 4.4	Groundwater Contamination								●			

General Plan Policy		Climate Action Plan Strategy
