

APPENDIX B

APPENDIX B

RANGE OF DIRECT INVESTMENT PROTOCOLS

**TABLE OF CONTENTS
RANGE OF DIRECT INVESTMENT PROTOCOLS
(ALPHABETICAL ORDER)**

PART	PAGE
INTRODUCTION TO APPENDIX B	i
PART 1	
Biomass Waste for Energy (CAPCOA GHG Rx)	1-35
Boiler Efficiency (CAPCOA GHG Rx)	36-52
Case by Case (CAPCOA GHG Rx)	53-72
Coal Mine Methane Summary (Climate Action Reserve)	73
Coal Mine Methane Errata and Clarifications (Climate Action Reserve).....	74-78
Coal Mine Methane (Climate Action Reserve).....	79-153
Coastal Wetland Creation (CAPCOA GHG Rx—based on Verified Carbon Standard)	154-338
Compost Additions to Grazed Grasslands (CAPCOA GHG Rx—based on American Carbon Registry).....	339-391
PART 2	
Forest Project Summary (Climate Action Reserve)	1-4
Forest Project Quantification Guidance (Climate Action Reserve)	5-36
Forest Project (Climate Action Reserve)	37-168
Forestry #1 (CAPCOA GHG Rx—based on CARB Compliance)	169-283
Forestry #2 (CAPCOA GHG Rx—based on American Carbon Registry) ..	284-317
PART 3	
Forestry #3 (CAPCOA GHG Rx—based on Climate Action Reserve).....	1-132
Forest (CARB Compliance)	133-278
Grassland Summary (Climate Action Reserve)	279
PART 4	
Grassland (Climate Action Reserve)	1-116
Landfill Summary (Climate Action Reserve)	117
Landfill Errata and Clarifications (Climate Action Reserve)	118-127
Landfill (Climate Action Reserve)	128-211
Livestock Summary (Climate Action Reserve).....	212
Livestock Errata and Clarifications (Climate Action Reserve).....	213-219
Livestock (Climate Action Reserve).....	220-310
Livestock Revised (CAPCOA GHG Rx—based on CARB Revised Compliance)	311-372

PART 5

Livestock (CAPCOA GHG Rx—based on Climate Action Reserve).....	1-100
Livestock (CARB Compliance)	101-160
Mine Methane (CARB Compliance).....	161-308
Nitric Acid Production Summary (Climate Action Reserve)	309
Nitric Acid Production Errata and Clarifications (Climate Action Reserve).....	310-312
Nitric Acid Production (Climate Action Reserve).....	313-388
Nitrogen Management Summary (Climate Action Reserve)	389
Nitrogen Management Summary of Changes V 1.0 to V 1.1	390

PART 6

Nitrogen Management (Climate Action Reserve)	1-141
Organic Waste Composting Summary (Climate Action Reserve).....	142
Organic Waste Composting Errata and Clarifications (Climate Action Reserve)	143-145
Organic Waste Effects of New Waste Diversion Mandates on Reserve Projects in California (Climate Action Reserve)	146-148
Organic Waste Composting (Climate Action Reserve)	149-226

PART 7

Organic Waste Digestion (CAPCOA GHG Rx—based on Climate Action Reserve).....	1-110
Ozone Depleting Substances (CARB Compliance)	111-170
Ozone Depleting Substances Summary (Climate Action Reserve)	171
Ozone Depleting Substances Article 5 Summary (Climate Action Reserve).....	172
Ozone Depleting Substances Article 5 Errata and Clarifications (Climate Action Reserve)	173-176
Ozone Depleting Substances (Climate Action Reserve)	177-246
Ozone Depleting Substances U.S. Errata and Clarifications (Climate Action Reserve)	247-250

PART 8

Ozone Depleting Substances U.S. (Climate Action Reserve)	1-98
Urban Forest Management (Climate Action Reserve)	99-141
Urban Forest (CARB Compliance)	142-190
Urban Tree Planting (Climate Action Reserve).....	191-231

PART 9

Weatherization (CAPCOA GHG Rx—based on Verified Carbon Standard)	1-43
Wetland Implementation (CAPCOA GHG Rx—based on American Carbon Registry).....	44-175

INTRODUCTION TO APPENDIX B

This Appendix provides a range of protocols that may be applied to County direct investment projects to implement CAP Measure T-4.1. There may be additional protocols necessary or desirable to implement CAP Measure T-4.1 projects.

Adherence to the protocols listed in this Appendix, as well as any additional protocols subject to the same standards as the protocols herein, ensures that the carbon reductions generated by CAP Measure T-4.1 are real, permanent, quantifiable, verifiable, and enforceable. Carbon offset registries require projects to comply with approved protocols using rigorous, standardized review processes. The protocols contain rules and procedures governing the retirement or cancellation of carbon offsets. Protocols and processes ensure that offsets retired from County direct investment projects pursuant to CAP Measure T-4.1 and listed on an offset registry satisfy the environmental integrity criteria established by the offset protocols. Carbon offsets achieved through implementation of Measure T-4.1 must be complete and retired before the County can take reduction credits. A registry will ensure that carbon offsets are retired in perpetuity.
