I am so pleased and proud that my county would have such a detailed and progressive plan. Am wondering where are the opportunities for individuals to become involved with its implementation. I am sure that you are aware that there are citizens with varied skill sets that could help on a volunteer basis.

I have recently retired from a thirty year career of helping to raise almost a third of a billion dollars for a variety of causes including: building hospitals, universities, medical schools, the national train systems, the USA Paralympic program, senior residence program, etc. I have also served on national and regional committees from the U.S. Supreme Court to our local San Diego Youth Symphony. I have a B.S. in biology, an M.A. And Ed. D. In Counseling and Personnel Management and credentials in Fundraising. Am not sure there is a niche for my skills but would consider involvement on a volunteer basis.

Again, thank you for your efforts.
