

Letter  
138

**From:** Cynthia McShea  
**To:** CAP  
**Subject:** County of San Diego, Climate Action Plan (CAP), Draft  
**Date:** Sunday, September 17, 2017 8:23:27 AM

Dear Sirs,

Roundabouts significantly decrease fuel consumption and emissions and should be added as a **Climate Action Plan strategy to reduce GHG emissions.**

According to the San Diego Air Pollution Control District (APCD) document on **Modern Roundabouts**, each roundabout can eliminate 189 metric tons of CO2 emissions annually. As noted in the APCD document, in addition to significant CO2 emissions and improved air quality, roundabouts provide other significant multi-modal benefits including increased safety for vehicles and pedestrians, and improved traffic flow.

Thank you for adding roundabouts to the CAP GHG emission reduction strategies.

Sincerely,

Cynthia A. McShea

138-1

### Response to Comment Letter I38

**Cynthia A. McShea**  
**September 17, 2017**

**I38-1** The comment states that roundabouts should be included in the CAP and describes the benefits of implementing roundabouts. Please see response to comment I7-2.
