**Project Description:** *(please use a separate page if necessary)*

The project comprises a comprehensive update to the Alpine Community Plan proposed by the County of San Diego (County). A Supplemental Environmental Impact Report (SEIR) will be prepared in order to analyze and disclose the environmental impacts of the project. The SEIR will tier from the General Plan Update (GPU) Program EIR (PEIR), the Forest Conservation Initiative (FCI) SEIR, and include updated baseline conditions. The SEIR will also be programmatic in nature in that it will analyze the reasonably foreseeable impacts of the changes to the plan. For example, changes to land use densities could result in an increase or decrease in impacts that were previously analyzed in the GPU EIR. It should be noted that the project itself does not propose any specific development project that would result in physical impacts on the environment.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
