Hi Susan,
Per our discussion at the 1/23 Boulevard meeting, attached are Boulevard resident letters that I collected and sent to the BIA in July that you said were permissible to submit as comment letters to the County for the above project also. Thank you.

Subject: **Draft Environmental Impact Statement (DEIS) Comments, Campo Wind Energy Project**

Dear Ms. Dutschke and Mr. Hall,

I am against the proposed Lease Agreement between the Tribe and Terra-Gen for the consideration of a Wind Energy Project on the Reservation for all the environmental impacts it will cause and the impacts to my health, my safety and my home. Please consider Alternative 3, the No Action Alternative for this Project.

Sincerely,

2019 WIND TURBINE NEIGHBOR SURVEY

I am a resident of the Boulevard area in rural Eastern San Diego County. In late 2005, the 25-2MW Gamesa turbines started operation at Kumeyaay Wind on the Campo Reservation. In late 2017, the 57-2.3 MW GE turbines started operation nearby, at Iberdrola's Tule Wind, with 52 of the 57 turbines installed on previously protected public BLM land in McCain Valley and 5 installed on private land owned by Hamann Company related entities. Now, Terra-Gen plans about 90 new 4.2 MW turbines on the Campo Reservation and private ranch land owned by GM Gabrych Family Limited Partnership.

Since the existing wind turbines started operation, or since I moved into the area, I have noticed the following issues that either started or got worse for myself and/or my family members:

Symptoms and other issues/impacts are checked/circled below:

- noise / vibrations
- low rumbling, whooshing, grinding sounds
- sleep disruption / being startled awake
- chronic fatigue / loss of energy
- headache/migraines
- vertigo (spinning or moving sensation)
- nausea or stomach pain
- concentration/memory issues
- irritability, feeling on edge, or jittery
- unexplained panic attacks/anxiety
- ringing or buzzing in the ears
- pressure in chest
- sinus or breathing problems / asthma
- heart fluttering, racing, or heart attack
- increased blood pressure or blood sugar
- depression or unusual mood swings
- visual blurring or eye pain
- unexplained rashes
- joint and muscle pain
- cancer or benign tumors. Type of cancer?

- electrical interference at home /office
- disrupted TV, cell, satellite service
- increased static electricity
- blade shadow flicker / strobe effect
- flashing night lights
- other issues not listed here

Symptoms seem worse when:

- inside home / office
- outside
- distracted by motion of turbines
- changes in air pressure / wind direction

Do symptoms get better or go away when you leave the area for days or weeks and then return when you get back?

Yes No

In your opinion, are existing turbines too close to homes/offices?

Yes No

Do the turbines make you want to move?

Yes No

Have you filed any complaints over the turbines?

Yes No

If yes, have you been contacted by San Diego County, BLM, Bureau of Indian Affairs, health officers, or wind turbine owners asking about or investigating your complaints: Yes No

If yes, was any help / investigations (noise/electrical/health) offered or provided? Yes No

I declare that this information is true to the best of my knowledge:
