My name is Cherilyn Maloney and I oppose the new wind energy project in Boulevard Ca. My family now looks at about 30 turbines and the sunrise powerlink. If this new project goes in we will be set much closer to a much bigger and invasive project. I ask for the land, for the winged things, for the water, for the animals, and for all the families that will be affected that we say enough is enough! This community has absorbed enough of the responsibility of the energy crisis. Please help protect my family! Cherilyn Maloney
