Good Morning Susan, My name is Ryan Peterson I live on Tierra Real Road in Boulevard CA. just a few hundred yards where this wind turbine project wants to happen. I am 100% against this project for many reasons, HEALTH concerns for my family and our animals is the most concerning along with wrecking our beautiful view of the land, these turbines our an eye sore and will bring down our property values as well. I know the people that live in the back country are here because it's a nice place to live and to get away from all the stresses of the big city. I want the back country to remain like it is peaceful, with the turbines that are already up I think that enough why do they need any more it's ridiculous putting profit before people. Thank you for taking the time to read this e-mail.

I 19-1
I 19-2
I 19-3
I 19-4

Respectfully

Ryan Peterson
