Dear Ms. Harris:

I have reviewed the cultural resources aspects of the subject DEIR on behalf of this committee of the San Diego County Archaeological Society.

[O11-1

Based on the information contained in the DEIR and its appendices, we agree with the analysis of potential impacts to cultural resources. We also agree that, to the maximum extent possible, impacts to significant resources (including any discovered through the monitoring program, should be avoided through project redesign.

I O11-2

[O11-3

Regarding the mitigation measures included in the cultural resources and tribal cultural resources sections of the DEIR, our only comment is to suggest an editorial change in M-CR-C: In the fourth line of M-CR-C, change "...shall minimally include..." to "...shall, as a minimum, include...", to better and more clearly reflect the intention of the requirement.

[O11-4

Thank you for the opportunity to participate in the public review of this DEIR.

[O11-5

Sincerely,

James W. Royle, Jr., Chairperson
Environmental Review Committee
