Subject: Boulder Brush -Campo Wind DEIR oppo petition 51 signatures
Date: Sunday, January 26, 2020 10:59:20 AM
Attachments: [Boulder Brush DEIR oppo petition 51 sigs 1-23-20.pdf](#)

RE: PDS2019-MUP-19-002; PDS2019-ER-19-16-001; SCH NO. 2019029094 Major Use Permit (PDS2019-MUP-19-002)

Hello Susan and Nicholas,

Please include in the DEIR record the attached 6-pages of the opposition petition with 51 signatures that were gathered by Backcountry Against Dumps at the January 23rd staff presentation on Boulder Brush Facilities - Campo Wind Draft EIR.

↓ O4-1

Thank you,
Donna Tisdale, President
Backcountry Against Dumps
619-766-4170

Petition to oppose Terra-Gen's 90 new 586 ft tall 4.2 MW turbines and new high-voltage line planned for Campo Reservation (252 MW Campo Wind) and private ranch land in Boulevard (126 MW Torrey Wind) & Boulder Brush Facilities & high-voltage Gen-tie line. It is one big connected project--not 3 separate projects! Tribal vote to approve lease was allegedly illegal--not properly noticed for vote. Most jobs will go to out-of-area contractors and labor--not locals. (Circulated by non-profit Backcountry Against Dumps as a public service. Return signed petitions to Donna Tisdale via, PO Box 1275, Boulevard, CA 91905 or tisdale.donna@gmail.com; 619-766-4170)

Petition summary and background	This petition is directed at decision makers at the Campo Band, Bureau of Indian Affairs, Dept. Of Interior, San Diego County, California Public Utilities Commission, elected representatives, and the general public who may think turbines are benign.
Action petitioned for	We strongly urge our leaders to act now to deny Terra-Gen's massive wind turbine projects based on significant, cumulative and disproportionate adverse impacts to: public health and safety, sleep deprivation & stress-related illnesses; noise, low-frequency noise, infrasound & vibrations; <u>increased fire risk & insurance costs</u> ; loss of scenic landscapes & property values; light and electrical pollution; well water; wildlife; pets and livestock & habit. Turbines are planned for too close to homes & roads. Existing turbines around the world generate complaints related to the impacts stated above, basically making homes toxic and families sick. Homes have been abandoned and bought out. <u>Courts and public agencies are finally starting to recognize that industrial wind turbines do impact health and property values. STOP THE TURBINES!</u>
