

I24 Craig and Carol Hobbs

- I24-1** The comment provides an introduction to the letter and general background regarding the authors. The comment does not raise an issue related to the adequacy of the analysis contained within the Draft Environmental Impact Report (EIR); therefore, no further response is required.
- I24-2** The comment states that windmills cause fires. Please refer to Chapter 2.9, Wildfire, of the Draft EIR. The Campo Wind Project with Boulder Brush Facilities (Project) would implement the Boulder Brush Facilities Fire Protection Plan (required under mitigation measure M-WF-1). In addition, a Fire Protection Plan for the Campo Wind Facilities would be prepared and implemented, as required by M-BI-C[h]. Also, please refer to Global Response GR-7, Fire Protection Services and Wildfire. This comment does not raise an issue regarding the adequacy of the Draft EIR; therefore, no further response is required.
- I24-3** The comment expresses concern regarding groundwater. Please refer to Chapter 3.1.5, Hydrology and Water Quality, and the Groundwater Resources Evaluation (Appendix J-1) of the Draft EIR for the analysis of impacts on groundwater resources. The comment does not raise an issue related to the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
- I24-4** The comment expresses concern regarding health issues. Please refer to Global Response GR-2, Public Health. The comment does not raise an issue related to the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
- I24-5** The comment states that wind turbines are too tall and an eyesore. For an analysis of Project impacts related to aesthetics and views, see Chapter 2.1, Aesthetics, of the Draft EIR. Please also refer to Global Response GR-8, Visual Impacts. The comment does not raise an issue related to the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
- I24-6** The comment states that wind turbines make the ground rumble. Please refer to Chapter 2.6, Noise, of the Draft EIR for the analysis of noise impacts. The comment does not raise an issue related to the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
- I24-7** The comment states that the windmills will devalue the authors property. Please refer to Global Response GR-1, Socioeconomic Impacts. The comment does not raise an issue related to the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
