

I39 Diane Ang

- I39-1** The comment includes a statement of opposition to the Campo Wind Project with Boulder Brush Facilities (Project), and states that it would harm the author's way of life and jeopardize their health. Please refer to Global Response GR-2, Public Health. The comment does not raise an issue regarding the adequacy of the analysis in the Draft Environmental Impact Report (EIR); therefore, no further response is required.
- I39-2** The comment states the residents are on well water and that the Project will create a water supply problem. Chapter 3.1.5, Hydrology and Water Quality, and the Groundwater Resources Evaluation (Appendix J-1) of the Draft EIR analyze the Project's impacts on groundwater resources. Please also refer to Global Response GR-6, Groundwater.
- I39-3** The comment states concern about wildlife. The comment also includes a statement of opposition to the Project. Chapter 2.3, Biological Resources, of the Draft EIR analyzes impacts to wildlife and mitigation measures are identified that would reduce significant impacts. Please also refer to Global Response GR-5, Biological Resources.
