

I5 Diane Ang

- I5-1** The comment includes a statement of general opposition to the Campo Wind Project with Boulder Brush Facilities (Project) and states the Project would affect health, property values, and livestock. In regard to property values, please refer to Global Response GR-1, Socioeconomic Impacts. Regarding the statement that the Project would affect the author's health, please refer to Global Response GR-2, Public Health. These statements do not raise an issue related to the adequacy of the analysis contained within the Draft Environmental Impact Report; therefore, no further response is required.
