

### **O11 San Diego County Archaeological Society Inc**

- O11-1** This is an introductory comment stating the cultural resources specific areas of the Campo Wind Project with Boulder Brush Facilities (Project) Draft Environmental Impact Report (EIR) have been reviewed by the commenter on behalf of the San Diego County Archaeological Society. This comment does not raise an issue regarding the adequacy of the Draft EIR; therefore, no further response is required.
- O11-2** This comment states the San Diego County Archaeological Society agrees with the analysis of potential Project impacts to cultural resources. This comment does not raise an issue regarding the adequacy of the Draft EIR; therefore, no further response is required.
- O11-3** This comment states the San Diego County Archaeological Society agrees that to the maximum extent possible, impacts to significant resources should be avoided through Project redesign. This comment does not raise an issue regarding the adequacy of the Draft EIR; therefore, no further response is required.
- O11-4** This comment provides the San Diego County Archaeological Society's only request regarding mitigation, suggesting an editorial change in mitigation measure M-CR-C to more clearly reflect the intention of the requirement. M-CR-C is identified as MM-CUL-3 in the Environmental Impact Statement (EIS) prepared for the Project by the Bureau of Indian Affairs. This mitigation measure pertains to the Campo Wind Facilities on the Campo Band of Diegueño Mission Indians Reservation, subject to the Bureau of Indian Affairs' Record of Decision. The County of San Diego does not have authority to revise mitigation language included as part of the EIS. This suggested minor editorial change does not raise an environmental issue within the meaning of the California Environmental Quality Act.
- O11-5** This closing comment thanks the County of San Diego for the opportunity to participate in the public review process. This comment does not raise an issue regarding the adequacy of the Draft EIR; therefore, no further response is required.
