

### O8 Boulevard Planning Group

- O8-1** This is an introductory comment requesting confirmation of receipt of the comment letter and associated attachments. This Boulevard Planning Group letter and attachments is a duplicate of comment letter and attachments submitted by Backcountry Against Dumps. Please see Comment Letter O6 and Responses to Comments O6-2 through O6-80. This introductory comment also refers to information related to the nickel-cadmium (NiCad) battery storage, which the commenter states is not appropriately disclosed in the Campo Wind Project with Boulder Brush Facilities (Project) Draft Environmental Impact Report (EIR), and information related to Project opposition by members of the Campo Band of Diegueño Mission Indians. This comment introduces comments to follow and requests both the comment and attachments be included in the public record. The County of San Diego confirmed the comment and attachments were received, and they are included as Comment Letter O8 of this Final EIR.
- O8-2** Please refer to Responses to Comments O6-2 through O6-80.
- O8-3** The commenter provides a copy of the Boulder Brush Facilities Substation Plot Plan page 26, highlighting NiCad components. Refer to Response to Comment O6-40.
