Every morning I take
my dog Roady at 5:30 Am.
for a run on land now proposed
to be used for a Solar project.
This is great open space that
reminds me of the midwest and
I would hate to see it trashed
with fields of Solar panels.
I love hiking in the fields as
the sun is rising and my dog love
to chase rabbits in the field.
One of the reasons I moved to
Jacumba was the easy access
to these easy hiking places.
Please don't let Jacumba be
come a suburb of a field of
Solar panels
