Subject: JVR: Compensation for Fire and Emergency Protection
Attachments: Rugged signed Agreement 2-4-2015.pdf

Hi Bronwyn,

Below please find information regarding our request for annual compensation for fire and emergency protection for JVR. Chief Nissen plans on discussing our compensation request at the meeting with JVR next week.

Proposed Annual Compensation

The project shall pay annually to the Fire Authority **\$134,810.42** for fire prevention personnel to be used as the Fire Authority sees fit in furtherance of the Fire Authority's mission in the southeast portion of CSA 135. This rate shall increase by three percent (3%) each Fiscal Year thereafter (i.e., the rate in effect for the prior Fiscal Year multiplied by 1.03 to obtain the following Fiscal Year's rate).

I've attached a copy the 2015 Fire and Emergency Protection Agreement with Rugged Solar LLC. Our agreement with JVR will be very similar to the Rugged Solar agreement. For comparison purposes, the annual rate charged in 2015 was \$109,000. JVR includes a 41% increase in disturbed acreage.

Thanks!

Liz Johnson
