**Subject:** RE: Airport Mesa and Jacumba Mountains visitor data

Hi Alexia – great, thank you so much for your help with this! Good to know Jacumba Wilderness is popular and receives decent use.

**Subject:** Re: Airport Mesa and Jacumba Mountains visitor data

The estimate is pretty low for the first four, probably less than 200 visitors per FY, but Jacumba is pretty popular and might receive around 1500 visits.

Hi Joshua,

The staff member that might have that information has been out of the office the last two weeks. Sorry I forgot to update you! I will try to get in touch with them tomorrow!

Hi Alexia,

Were you able to track down any user data for the Airport Mesa or Table Mountain RMZs?

Thanks!

Hi Alexia,

I figured official data was unlikely given the anticipated low use of the Jacumba area. Thanks for looking for approximate use data.

Josh

Hi Josh,

I don't think we collect visitor data for these areas, but we may have some sort of approximate data. Let me see if I can get that for you.

Hi Alexia,

Similar to my November request for visitor data in the McCain Valley (thank you so much – so helpful!!), I was hoping you might have data for BLM lands in the Jacumba area. The areas I'm most interested in are as follows:

- Airport Mesa RMZ
- Table Mountain RMZ
- Table Mountain WSA
- Carrizo Gorge Wilderness
- Jacumba Wilderness

Maps depicting the location of these areas are attached.

Let me know if you'd like to discuss. I anticipate that visitor data may not be available for most of these locations but it would be extremely helpful if a quantitative or qualitative assessment/approximation of use (e.g., very low/less than 100 persons per year, low/between 100 and 500 persons per year) could be shared. Ideally I'd like to have the data/approximation of use by end of next week but do let me know if that work with your schedule.

Thank you so much,

**Josh Saunders, AICP**
