

Energy Almanac

The California Energy Commission serves as California’s central repository for the collection and storage of data on all forms of energy supply, demand, efficiency and conservation, transportation, and related subjects. The Energy Almanac provides current and historical energy-related data.

ABOUT ENERGY ALMANAC

[California Electricity Data](#)

Data on electricity production, pricing, and consumption in California.

[California Power Plants](#)

Data on California’s power plants.

[California’s Natural Gas Market](#)

Data on the natural gas industry.

[California’s Petroleum Market](#)

Data on the petroleum industry.
