Rob,

Thank you for your email.

Some computers are having no issues with this, but we understand that some users are. We will be posting an additional set of plot plans that will be a smaller file size.

Best,

Nick and Sean,

I am having trouble accessing the Plot Plan from the public review webpage (as soon as I try to scroll to Sheet 3) via internet explorer. I noticed this file is rather large (over 75MB) and that there probably needs to be a link to each sheet of the Plan. I would imagine folks out in the project site area would also have a difficult time accessing this file. Check it out and let me know what you find.

Thanks,
