RE: Forwarding of JVR Energy Park (PDS2018-MUP-18-022) DEIR Signed Petitions

Dear Ms. Harris,

Attached are additional signed petitions from Jacumba residents who are vehemently opposed to JVR Solar Park project. They unanimously believe that this massive energy project would be "a nail in the coffin" with regards to Jacumba's future.

We

we, the undersigned, oppose the 90MW Jacumba Valley Ranch (JVR) Solar Park. This industrial-sized project seeks to put 300,000 photo-voltaic cells on 643 acres immediately adjacent to Jacumba residences, the senior center and community park, the Jacumba airport, and along both sides of historic Highway 80. If approved, this project would destroy scenic vistas, lower our property values, displace wildlife, and introduce mechanical noise into our quiet, rural landscape. More importantly, the JVR solar park squanders Jacumba's ability to expand by consuming the best available land for at least the next 38 years. (Left is a visual simulation of the JVR Park.)

As a resident of Jacumba, I want our elected leaders to vote for the NO PROJECT alternative of the October 2020 JVR DEIR!
Please help us save our town!

to oppose The JVR (Jacumba Valley Ranch) Solar Project also known as The Jacumba Solar Park 90 mega watt solar generation and 20 mega watt storage facility. This project and others in the area are connected and not separate actions and cause cumulative impacts as noted in CEQA Article 20 Definitions. Section 15355. Cumulative Impacts.

Petition summary and background	This petition is directed at decision makers at the Jacumba Sponsor Group who some on Group may benefit financially, San Diego County, California Public Utilities Commission, and the general public who may think the Solar Project in close proximity to residents living in the community of Jacumba is safe and beneficial to the Community.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to deny the Jacumba Valley Ranch Solar Project projects based on significant, cumulative and disproportionate adverse impacts to: public health and safety, sleep deprivation & stress-related illnesses; noise, low-frequency noise, increased fire risk & insurances costs; loss of scenic landscapes & property values; light and electrical pollution; well water; wildlife; pets and livestock & habitat. Solar Panels and inverter, collection stations, and substations are planned far too close to homes & roads. Mail or email copies to: Dianne Jacob 1600 Pacific Highway, Rm335, San Diego, Ca. 92101 email: dianne.jacob@sdcounty.ca.gov
