Subject: JVR Energy Park - PPA Talking Point

Mark,

As discussed, please see talking point regarding the PPA for JVR Energy Park:

"Using the EPA's Greenhouse Gas Equivalencies Calculator, JVR Energy Park offsets just over 34,000 homes' electricity use per year. In 2023, San Diego Community Power ("SDCP") anticipates having more than 850,000 residential accounts. Therefore, if the project signed a PPA with SDGP, JVR Energy Park will supply approximately 4% of clean, reliable electricity for SDGP's residential accounts."

Please let me know if you need anything else.

Regards,
Geoff
