Hi Nick,

I haven't heard anything from you since I since i sent you the Jacumba Sponsor Group's denial on the revised JVR project plans.

Since there will be a special sponsor group meeting on Thursday, Jun 17, I would like to be able to update the group on where the project currently stands.

Specifically do you know what day the Final EIR will be released?

How many copies of the document will Jacumba get and how will we get them?

Also what date will the JVR project go before the Planning Commission and the BOS?

Thanks in advance for your prompt response.

Cherry
