New eComment for Planning Commission Hearing

ERIK CANSECO submitted a new eComment.

Meeting: Planning Commission Hearing

Item: C. Public Communication: Opportunity for members of the public to speak to the Commission on any subject matter within the Commission's jurisdiction, but not an item on today's Agenda. If you would like to speak on this item call (619) 343-2539 and use ID 333 879 56#

eComment: I am land owner in jacumba hot springs to a 37 acre property on the west side of town bordering highway 80. The enviornmental report submitted clearly states that more than 90 bird species have been observed in the area. This town happens to be a very important migration point for birds and insects on their way north, i fear the large size of the project will be a magnetic interference for the migrating animals through the emf field generated, as well as consequences for the people living near.
