Kathleen, Mark and Nick –

Below is a high-level summary of consultation that was conducted to identify sacred lands and TCRs. Red items are AB-52 consultation conducted by the County.

- Sacred lands file check (conducted by consultant)/**AB-52 Consultation (conducted by County)** – no TCRs/Sacred Lands identified but area identified as sensitive.
  - Carmen Lucas (Kwaaymii) stated she did not have knowledge of any specific TCRs that may be impacted by the Proposed Project but that Jacumba is a sacred area and that “not one inch” of the area does not have cultural significance. She recommended that a qualified Native American monitor be present during survey of the Proposed Project. She also recommended that forensic dogs be used to identify human remains. **She did not respond to County outreach for AB-52 consultation.**
  - **County consulted with Barona, Campo, Jamul, Manzanita, Viejas.**
  - **Consultation was concluded with Barona, Campo, Jamul, and Viejas. No TCRs were identified.**
  - **Manzanita – consultation concluded due to lack of response on 5/27/2020. Outreach sent on 1/7/2020, 2/25/2020, 4/7/2020, and 5/27/2020.**
    - **Outreach to Manzanita as a stakeholder – County still willing to meet to discuss concerns – 2/25/2021, 8/12/2021. No response received.**
- Manzanita comment letter (public review) primarily focused on government-to government consultation and claims that the County did not consult in good faith. Letter identified two sacred mountains which were already identified by the project consultant.

Let me know if you need anything else. I am discussing this email with the cultural consultant. I am not aware of an ancient trade route from Northern Mexico to New Mexico that would have incorporated Jacumba since the geography between those points are east of California.

Thanks,

Donna Beddow  
Senior Adjunct Archaeologist

Thanks Kathleen. This has not been brought by the tribes during consultation.

This is one of many that refers to the “sacred” land, tribal land, etc., so I would expect Board to ask us about it and what we’re hearing from the tribes.

## New eComment for Board of Supervisors Meeting

Twila Foresees submitted a new eComment.

Meeting: Board of Supervisors Meeting

Item: 1. NOTICED PUBLIC HEARING: JVR ENERGY PARK MAJOR USE PERMIT, FIRE PROTECTION AND MITIGATION AGREEMENT, AND ENVIRONMENTAL DOCUMENT

eComment: Jacumba is on the ancient trade route that linked the valley of Mexico w. Chaco Canyon NM, thus it is sacred Toltec land. Through our preservation of Jacumba mt. landscape, we instigated the addition of a thousand acres to the Anza Borego park system. We are stepping out of the shadows to defend this RAPE of the Earth. While drought engulfs our world, in Northern Mexico cattle are dying by the thousands, you are using precious water to build robots, killing birds, destroying Earth! Shame on you!
