

Response to Comment Letter I90

Ayakel Jaguar Quetzalcoatl

- I90-1** This comment states the commenter is writing to stop the destruction of sacred Indian land in Jacumba Hot Springs. The commenter also states “our ancestors used this area to set up meetings at the crossroads between the trade routes from Mexico to the US.” The commenter further states the “artifacts that have constantly turned up in this area due to our lengthy presence for generations, culminated in the shooting by the McCains.” In response, Sections 2.4 Cultural Resources and 2.11 Tribal Cultural Resources in the Draft EIR provide an analysis of the Proposed Project’s potential impacts to cultural and tribal cultural resources. With implementation of mitigation measures, potential impacts would be reduced to less than significant.
- I90-2** The comment states “Now you are adding insult upon insult to our nation with the proposed Robot Solar Farm.” The commenter also states, “Stop now... your time of destruction is over.” In response, the County acknowledges the commenter’s opposition to the Proposed Project. The comment does not raise an issue regarding the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.

INTENTIONALLY LEFT BLANK.
