RE: JVR Solar Project
proposed for Jacumba
Hot Springs, CA

(Because I've been within the area for decades.)

I was shocked to hear of this proposal planned for the community due to its proximity to Anza Borrego Park and the famous Carrizo railway.

194-1

~~Why are there to put a~~

① Why are you planning an industrial project in the heart of a residential desert community?

194-2

② Imperial valley would be more appropriate, why not over

194-3

contd.

put the project there?

194-3
contd.

③ What impact will this project have on the local families in the community

194-4

④ What impact will ^{this} project have on the future growth and what kind of growth.

194-5

⑤ What pesticides & chemicals will be used and sprayed in the local community and what are the effects on the environment

194-6

⑥ What is the life expectancy of this plant

194-7

⑦ Where will used & defective panels be disposed of and what are the associated costs

194-8

⑧ How will this project benefit Jacumba Hot Springs

194-9

⑨ Will this project be forced on the community and if so why?
