

**Response to Comment Letter I99**

**David Kehrer**

- I99-1** The commenter states that every morning he takes his dog for a run on land now proposed to be used for the solar project. The commenter states that this land is great open space that reminds him of the Midwest, and he would hate to see it “trashed with fields of solar panels.” The commenter also states that he loves hiking in the fields and one of the reasons he moved to Jacumba was the easy access to these easy hiking places. In response, the comment does not raise an issue regarding the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
- I99-2** The commenter asks that Jacumba not become a suburb of a field of solar panels. In response, the Proposed Project will require approval from the County Board of Supervisors. The comment does not raise an issue regarding the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
