

Dear Mr Wardlaw,

I am writing this letter to oppose the Mesa Rock Road crushing and toxic disposal plant that is planned for this site. As a family doctor I feel that an independent environment study needs to be done prior to using this site. However, if the County and Cities effected do not do this the citizens will! And I foresee possible litigation and injunctions for this project. The health of the citizens must and will come first. Please re- consider the location of this site.

Sincerely,

Patricia L.Christie MD

Dear Mr Sibbet,

I am writing this letter to oppose the Mesa Rock Road crushing and toxic disposal plant that is planned for this site. As a family doctor I feel that an independent environment study needs to be done prior to using this site. However, if the County and Cities effected do not do this the citizens will! And I foresee possible litigation and injunctions for this project. The health of the citizens must and will come first. Please re- consider the location of this site.

Sincerely,

Patricia L.Christie MD
