WRITTEN COMMENT FORM

I strongly oppose all four of the Solar projects as described in the Soitec Solar RER. I oppose these projects because of the significant impacts to the natural environment, sensitive biological and cultural resources, negative impact they will have on adjacent residents' quality of life, property values, etc. I am also concerned about the placement of large scale solar farms in a wild area that has limited firefighting capabilities. These big projects do not fit our rural landscape.

For these reasons, I support the No Project alternative listed in Soitec RER.
