Planning and
Development Services

A FEW WEEKS AGO MY SON INQUIRED WITH THE ENGINEERING FIRM WHO DID YOUR INITIAL WATER IMPACT REPORT. AS A HOMEOWNER RIGHT UP AGAINST THE RUGGED SOLAR PROPOSED PROJECT I AM GREATLY CONCERNED. APPARENTLY MY WELL IS NOT ON RECORD WITH THE COUNTY. MY HOUSE BUILT IN 1993; REPURCHASED BY MY HUSBAND AND I IN 1994 HAS A WELL WITHIN 200 FEET OF THE WALKER RESIDENCE WELL AND WITHIN 2700' OF WELL 6B. APPARENTLY I CAN HAVE MY WELL MONITORED ACCORDING TO THEIR FIRM BECAUSE OF THE RELATIVE LOCATION. ALTHOUGH WE ARE VERY MUCH AGAINST THE SOITEC SOLAR PROJECT BECAUSE OF HEALTH CONCERNS (LIVING SO CLOSE) AND MAINLY BECAUSE OF WATER ISSUES. THE WATER TABLE DOES NOT STOP AT THE PROPERTY LINE. THESE PAPERS ARE ALSO BEING SENT TO OUR LAWYER. I HAVE NEVER HAD A PROBLEM WITH MY WELL AND DO WANT TO KEEP IT THAT WAY. IF YOU HAVE ANY QUESTIONS CALL (619)302-1786. WE ARE CONCERNED,

LAURA + RANDY

2669 RIBBONWOOD RD
BOULEVARD, CA 91905

Jesse,

Thanks you for inquiring about the Groundwater Monitoring and Mitigation Plan prepared for the Rugged Solar Farm Project. Your parents property located at 2669 Ribbonwood Road, Boulevard, California 91905 (APN 611-090-20) is sufficiently close to the Project pumping wells that it could be included in the well monitoring network should the Project be approved and constructed (see attached map).

No well is depicted on the map for your parents property because the County of San Diego does not have a record of the well (i.e. the well was likely constructed prior to 1978 when the County first started keeping track of well records) and access was not previously granted to the property to provide well locating.

I suggest that if you have any specific comments on the draft Environmental Impact Report (EIR) that you submit them in writing to County of San Diego Planning and Development Services at 5510 OVERLAND AVENUE, SUITE 110, SAN DIEGO, CALIFORNIA 92123 to get your comments on the administrative record.

Be sure to reference the project numbers and name:

SOITEC SOLAR DEVELOPMENT PROGRAM ENVIRONMENTAL IMPACT REPORT, LOG NO. PDS2012-0910-120005 (ER); 3800-12-010 (GPA); TIERRA DEL SOL, 3300-12-010 (MUP); 3600-12-005 (REZ); 3921-77-046-01 (AP); RUGGED SOLAR, 3300-12-007 (MUP); SCH NO. 2012121018.

I would be happy to discuss the Project in more detail if you have any additional questions. Please contact me on my mobile phone at 760.415.1425.

Cheers,

Trey

Mr. Foster,

My name is Jesse Fellen and I'm in the engineering program at San Diego State. I have a question regarding the Groundwater Monitoring and Mitigation Plan for the Rugged Solar Farm Project which was prepared by your firm. The preparers listed on the report were Trey Driscoll, Lydia Roach, Michael Haff, and Stephen Dickey.

The question I have is regarding page #4 on the report and I have attached a screen shot below. I believe there is an open residential well that is not reflected on the layout. There is no well noted for 2669 Ribbunwood Rd, Boulevard, CA 91905 which has parcel #611-090-20-00. The east edge of the property shares a border of the solar project's property line. The well is not depicted by any color dot and I believe it is located within like 1/2 mile radius of project well 6b. The well in question is located just south of the Walker Residence Well which is 2700' from well 6b according to your layout. Is there a reason why this well was left off or was it an oversight?

My parents own the property and well in question. They rely on the well for their water needs and I want to make sure their well is being taken into consideration along with the neighboring wells effected. Thank you for your time and I would appreciate any insight that you may be able to offer.
