RE: Sight Distance Certification for the intersection of San Pasqual Valley Road and Private Driveway "A"

I, William Lundstrom (RCE 61630), certify that there is a minimum of 550 feet of unobstructed intersectional sight distance from the project entry and San Pasqual Valley Road measured in accordance with the methodology described in Table 5 of the March 2012 County of San Diego Public Road Standards. These sight distances meet the required intersectional Sight Distance of 550 feet as described in Table 5 based on a speed of 55 mph, which I have verified to be higher of the prevailing speed or the minimum design speed of the road classification.

I have exercised responsible charge for the certification as defined in Section 6703 of the Professional Engineers Act of the California Business and Professional Code.

Sincerely,

LUNDSTROM ENGINEERING & SURVEYING
