I. HABITAT LOSS PERMIT ORDINANCE – Does the proposed project conform to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The proposed project is located within the boundaries of the Multiple Species Conservation Program. Therefore, conformance to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings is not required.

II. MSCP/BMO - Does the proposed project conform to the Multiple Species Conservation Program and Biological Mitigation Ordinance?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The proposed project is within the boundaries of the Multiple Species Conservation Program. The project conforms with the Multiple Species Conservation Program and the Biological Mitigation Ordinance as discussed in the MSCP Findings dated March 18, 2026.

III. GROUNDWATER ORDINANCE - Does the project comply with the requirements of the San Diego County Groundwater Ordinance?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The project will obtain its water supply from the Padre Dam Municipal Water District which obtains water from imported sources. The project will not use any groundwater for any purpose, including irrigation or domestic supply.

IV. RESOURCE PROTECTION ORDINANCE - Does the project comply with:

The wetland and wetland buffer regulations (Sections 86.604(a) and (b)) of the Resource Protection Ordinance?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input checked="" type="checkbox"/>
The Floodways and Floodplain Fringe section (Sections 86.604(c) and (d)) of the Resource Protection Ordinance?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input checked="" type="checkbox"/>
The Steep Slope section (Section 86.604(e))?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Sensitive Habitat Lands section (Section 86.604(f)) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Significant Prehistoric and Historic Sites section (Section 86.604(g)) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>

Discussion:

Wetland and Wetland Buffers:

The site contains no wetland habitats as defined by the San Diego County Resource Protection Ordinance. The site does not have a substratum of predominately undrained hydric soils, the land does not support, even periodically, hydric plants, nor does the site have a substratum that is non-soil and is saturated with water or covered by water at some time during the growing season of each year. Therefore, it has been found that the proposed project complies with Sections 86.604(a) and (b) of the Resource Protection Ordinance.

Floodways and Floodplain Fringe:

The project is not located near any floodway or floodplain fringe area as defined in the RPO, nor is it near a watercourse plotted on any official County floodway or floodplain map. Therefore, it has been found that the proposed project complies with Sections 86.604(c) and (d) of the Resource Protection Ordinance.

Steep Slopes:

Slopes with a gradient of 25 percent or greater and 50 feet or higher in vertical height are required to be placed in open space easements by the San Diego County Resource Protection Ordinance (RPO). Because the rise is less than 50 feet in vertical height, there are no steep slopes on the property. Therefore, it has been found that the proposed project complies with Sections 86.604(e) of the RPO.

Sensitive Habitats:

Sensitive habitat lands include unique vegetation communities and/or habitat that is either necessary to support a viable population of sensitive species, is critical to the proper functioning of a balanced natural ecosystem, or which serves as a functioning wildlife corridor. The project site contains sensitive habitat lands as defined by the Resource Protection Ordinance including 8.4 acres of non-native grassland, 0.29 acre of southern coast live oak riparian forest, 0.1 acre of disturbed coastal sage scrub, and 0.2 acre of coast sage – chaparral scrub. The project site also supports habitat for Crotch's bumble

bee, orange-throated whiptails, and foraging habitat for red-shouldered hawk. All feasible measures necessary to protect and preserve the sensitive habitat lands, including habitat conservation and breeding season avoidance, have been made conditions of approval of project and it has been determined that the mitigation provides an equal or greater benefit to the affected species.

Significant Prehistoric and Historic Sites:

The property has been surveyed by a County of San Diego approved archaeologist and it has been determined there is one archaeological site present. Site CA-SDI- 23515 is assumed RPO significant in the absence of testing. The project complies with the RPO because the site(s) will be preserved in place with a dedicated open space easement that prohibits all vehicular, trash dumping, vegetation clearing, or other ground disturbing activities within the open space easement, including adequate buffers. Grading monitoring would be implemented for all project grading activities outside of the open space easement. Therefore, it has been found that the proposed project complies with Section 86.604(g) of the RPO.

V. STORMWATER ORDINANCE (WPO) - Does the project comply with the County of San Diego Watershed Protection, Stormwater Management and Discharge Control Ordinance (WPO)?

YES NO NOT APPLICABLE

Discussion:

The project Storm Water Management Plan and CEQA Drainage Study have been reviewed and are found to be complete and in compliance with the WPO.

VI. NOISE ORDINANCE – Does the project comply with the County of San Diego Noise Element of the General Plan and the County of San Diego Noise Ordinance?

YES NO NOT APPLICABLE

Discussion:

The proposed project would not expose people to nor generate potentially significant noise levels which exceed the allowable limits of the County of San Diego Noise Element of the General Plan, County of San Diego Noise Ordinance, and other applicable local, State, and Federal noise control regulations.

Transportation (traffic, railroad, aircraft) noise levels at the project site are not expected to exceed Community Noise Equivalent Level (CNEL)=60 decibels (dB) limit because review of the project indicates that the project is not in close proximity to a railroad and/or airport. Additionally, the County of San Diego GIS noise model does not indicate that the project would be subject to potential excessive noise levels from circulation element roads either now or at General Plan buildout.

Noise impacts to the proposed project from adjacent land uses are not expected to exceed the property line sound level limits of the County of San Diego Noise Ordinance.
