Attention Jim Bennett

5510 Overland Avenue, Suite 310

San Diego, CA 92123

RECEIVED
SEP 14 2015

Dear Mr Bennett,

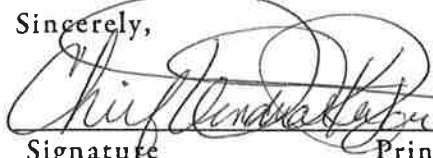

I am writing to offer my thoughts and ideas about the scope and nature of the environmental impacts that will be caused by the El Monte Valley Sand Mining Project. I ask that these concerns be thoroughly considered in the preparation of the Environmental Impact Statement.

This project will negatively impact:

All of the Environment! There are a Nesting Golden Eagles that have come back for generations also, being Native American and a Nations clan Chief, Our land has been taken & "raped" for generations - There are many "artifacts" stemming from a "Village" situation, which makes this land, SACRED!! Also, all the trees, plants, flowers, which the bees help pollinate all these plants etc....

We are mostly farms here that like to ride our horses and walk our dogs & hike these lands! Now, lets talk about the water - WATER IS LIFE! This project will contaminate & take away life for many & Valley people! What about our kids and our children? This Project is Bogus!

Sincerely,

Chief

Notes on Back

Mindy Tell her - Notes
appendix G

- horse tracks

- Golden Eagles, Coyotes, Ravens, Hawks, Fox, Rabbit
etc.

- Native Artifacts

- Species - in seasons also

- "Fossil"

- Environmental Impact Reports

15 yr. Project they are trying to get the
permit for - Wrong

Valley Fever

Water Contaminates

- Drought!

We are members of the Sierra Club
also

Show me a Sand Mine that has
EVER did what they promise!

- Climate change?
