

County of San Diego, Planning & Development Services
STEEL BUILDING CERTIFICATION
BUILDING DIVISION

Re: Record ID: _____
Site address: _____

To County of San Diego Building Official:

I, _____, being an engineer/architect (circle one) registered in the State of California, do hereby certify that I have thoroughly reviewed the plans and calculations for the _____ long by _____ wide steel building proposed for _____, owner on application, and have determined that, to the best of my knowledge and belief, the plans and calculations are compatible with and conform to all requirements of the current *California Building Code* as amended and adopted by the County of San Diego.

This certification is made under penalty of perjury.

Signed: _____

Date: _____

Registration/license number: _____

Phone number: _____

NOTE: Prior to final approval by the County of San Diego, a completed and signed form PDS #003A will be required from a California-registered engineer/architect certifying the construction is in accordance with the approved plans, calculations, and all requirements of the *California Building Code* as amended and adopted by the County of San Diego. Engineer/architect certification does not eliminate the need for required building inspections.
