20. Building Code Requirements

21. General

This document contains the minimum construction standards for structural members as required by the County of San Diego Building Code. The specifications are intended to ensure the safety, health, and welfare of the public, and to provide a framework for the construction industry to follow. The guidelines are based on current building codes and practices, and are subject to change as new regulations and technologies are adopted. The construction professional is responsible for adhering to all applicable codes and ensuring that the project meets the requirements outlined in this document.
