

MODIFICATION #2
WEST LILAC ROAD OVER I-15 BRIDGE
DEPARTMENT OF PUBLIC WORKS

**Request for a
Modification to a Road Standard
and/or to Project Conditions**

Project Number: TM 5571/5572 Date of Request: January 31, 2014

Project Location: Interstate 15 and W. Lilac Road in the County of San Diego, State of California.
127-072-20, 127-072-14 127-072-38, 127-072-41 127-072-40,
Thos. Bros. Map/Grid: 1049, 1069 APN: 127-072-46 127-072-47, 128-280-42 128-440-01, 128-280-46
128-280-27, 128-280-10, 128-440-23, 128-280-37 128-440-05

Requestor Name: Village Communities, Inc Telephone: (858) 345-3644

Address: 11452 El Camino Real, Suite 120, San Diego, CA 92130

Requested Modification (attach engineering sketches showing existing layout, details and notes):

The standard road section for Light Collector Road 2.2C is 40'-54' wide curb to curb
width on 64'-78' r/w with a minimum design speed of 40 mph. The requested modification
to the road standard is to require no widening of the existing 40' wide West lilac Road
bridge over I-15 and allow only re-striping and the addition of curb, gutter and sidewalk
on one side of the road (see attachment 1).

Reason for requested Modification (provide attachment if additional space is required):

The existing 40' wide bridge section has a 24' travel way with 8' shoulders on each
side. A proposed widening of the bridge would be extremely expensive, extremely
disruptive to anyone that uses West Lilac Road & I-15, and would alter the beauty and
historic nature of the bridge (see attachment 2). The modified road would also allow
for safer pedestrian traffic over the bridge.

List alternatives that could mitigate the requested Modification (attach engineering sketches showing proposed layouts, details and notes):

No alternative is proposed.

Describe the hardship(s) to the property owner(s) and/or neighbor(s) if the request is not approved (see note 3. on reverse):

Aside from the cost, widening a bridge of this type would be immediately met with strong
opposition from preservationists, environmentalists, et al.

Provide Design and Cost Estimate for meeting the Condition (see note 3. on reverse):

We are working on an estimate based on recent comparisons. The pedestrian bridge over Harbor Drive
was \$40 million. Therefore, we would assume the cost of a new vehicular bridge spanning I-15 would
be much more than that.

See reverse for directions and important information.
