TOTAL NUMBER OF DWELLING UNITS					28²

1 Travel time based upon Table S-1, Travel Time Standards from the Closest Fire Station, given in the County General Plan Safety Element. A travel time for RL-40 lands is not identified; however, a time of 20 minutes is assumed herein.

2 Total dwelling unit yield reflects that achieved through the County's discretionary approval process (e.g. GPA, Tentative Map, etc.), as represented by those rows that are shaded in the table. Those units that could be otherwise constructed without discretionary approval are not included in the total.
