Name of Item:

ADU Setback Clarifications

Type Of Amendment

Clarification

What is The Issue?

The Zoning Ordinance uses inconsistent language to describe how building setbacks are measured in different sections specific to Accessory Dwelling Units (ADUs), it causes confusion when applicants are trying to interpret the regulations.

Briefly summarize the issue by providing specific and relevant information, including real-world examples.

Who will Benefit?

Property owners, applicants for projects, County staff will benefit by being consistent with one another when interpreting language

Describe the benefit that would result from the change. Will this resolve a parcel specific issue or will it affect land development more broadly.

What is the Solution?

Clarify and standardize setback measurement language across all sections of the Zoning Ordinance. No development standards are needed to be changed.

Briefly summarize your proposed amendment and how it addresses the issue or problem.

Request Type

Zoning Ordinance section 6156 RESIDENTIAL AND AGRICULTURAL USE TYPES, subsection (x) (8 through 13)
