

San Diego County Probation Department's 2016 PREA Statistics

The below table shows the number of reported allegation of sexual abuse, repeated sexual harassment incidents and the number of Substantiated findings within the four (4) San Diego County Probation Department's (SDCPD's) juvenile facilities during the 2016 calendar year. Although the report below reflects data from all four (4) SDCPD's juvenile facilities, the Department of Justice (DOJ) only requested data from three (3) of the facilities that were reported on the 2016 Department of Justice Survey of Sexual Victimization forms. DOJ did not require for the Girl's Rehabilitation Facility (GRF) to complete the 2016 DOJ Survey of Sexual Victimization form.

San Diego County Probation Department continues to vigorously strengthen its PREA education, reporting, investigations and tracking system to ensure the agency attains full compliance with all PREA standards. The Kearny Mesa Juvenile Detention Facility (KMJDF), East Mesa Juvenile Detention Facility (EMJDF), Girl's Rehabilitation Facility (GRF) and Camp Barrett completed a DOJ certified PREA Audit in May and June of 2016 and all four facilities passed the audit.

When compared to the 2015 year stats, there was an increased in the number of reported PREA allegations and Substantiated findings in the SDCPD juvenile facilities in 2016. However, when the stats for both calendar years 2015 and 2016 were combined, the number of reported allegations and Substantiated finding were less than the stats for calendar year 2014.

In year 2015 there were a total of 22 reported PREA allegations and of those only three (3) had Substantiated findings (one incident involved youth-on-youth abusive sexual contacts and two for youth-on-youth sexual harassment). In year 2016 there were a total of 27 reported PREA allegations and of those only six (6) had Substantiated findings (one incident involved youth-on-youth abusive sexual contacts and five for youth-on-youth sexual harassment).

In year 2014 there were a total of 54 reported PREA allegations, and of those 13 had Substantiated findings (three incidents involved youth-on-youth abusive sexual contacts, eight for youth-on-youth sexual harassment, and two staff-on-youth sexual harassment).

There were some slight changes with year 2016 stats when compared with year 2015 stats. The number of youth-on-youth nonconsensual sexual acts was one (1) in 2016, when compared to zero in 2015. The number of youth-on-youth abusive sexual contacts was six (6) in 2016, when compared to four (4) in 2015. The number of staff-on-youth sexual misconduct was five (5) in 2016, when compared to two (2) in 2015. The number of youth-on-youth sexual harassment went up by three with eleven (11) in 2016, when compared with eight (8) in 2015. The number of staff-on-youth sexual harassment went down to zero for 2016, as compared to five (5) in 2015.

There was a significant decrease in allegations at the EMJDF in 2016. In year 2014, there were 17 repeated allegations of staff-on-youth sexual harassment, primarily due to profanity or inappropriate comments. In year 2015, there were five (5) allegations. In year 2016, there were none.

SDCPD contribute the decrease in the number of reported youth-on-youth sexual harassment allegations at the EMJDF to the agency’s commitment with the PREA and Sexual Harassment/Sexual Abuse prevention education/training and vigorous investigations on all reported PREA related allegations. The youth in our juvenile facilities receive the Sexual Harassment/Sexual Abuse prevention education daily during breakfast, participate in weekly PREA programming, and the staff receives the monthly PREA Eblast training of the PREA standards. SDCPD’s juvenile facilities have a zero tolerance policy on sexual harassment/sexual abuse, including the use of profanity, and all PREA allegations are taken seriously and investigated. Also, having dedicated PREA Compliance Managers and staff properly tracks all PREA allegations ensures proper reporting on incidents and helps the facilities track any trends and catch any deficiencies and make appropriate corrective actions in a timely manner.

When compared to 2015, the Girl’s Rehabilitation Facility (GRF) saw an increased in the number of youth-on-youth related PREA related allegations in 2016. In year 2015, the facility had Zero reported allegations. In 2016, there were 2 reported youth-on-youth abusive sexual contact (none were substantiated) and 6 repeated youth-on-youth sexual harassment (3 were substantiated).

San Diego County Probation 2016 PREA Statistics
