Springboard Scenario 1

Scenario 1 represents a map that focuses on preserving BIPOC immigrant, refugee, and border communities in the southern part of the County. This achieved by drawing the boundary of district 1 from east to west across the entire county, with a shorter north/south extent in the west and wider north/south extent in the east. While this does preserve the border areas and includes the entirety of the City of Chula Vista, National City is divided between districts 1 and 2. In the north, the cities of Encinitas and Carlsbad are kept in the same district, but they are split from their North County neighbors, Vista, and San Marcos. The unincorporated community of Fallbrook is preserved in district 5; however, Rainbow is divided between district 3 and district 5.

California Statewide Database Adjusted 2015-2019 American Community Survey Citizen Voting-age Population (CVAP) by Race and Ethnicity Special Tabulation. Rounding may lead to summation of percentages not equal to 100% (+/- 1%).

Criteria Specific to the County of San Diego

At least three district shall include unincorporated territory.

Number of districts that include unincorporated territory: **5**

Districts that include unincorporated territory:

District 1
District 2
District 3
District 4
District 5

Two district must be comprised of primarily unincorporated territory.

Number of districts that are primarily unincorporated territory: **3**

Districts that are primarily unincorporated territory:

District 1
District 3
District 5

Division of Communities of Interest (COIs), cities, census designated places, etc.

Number of COIs split between two or more districts: **10**

Number of municipalities split between two or more districts: **4**

Municipalities split between two or more districts:

Del Mar
Escondido
National City
San Diego

Number of indian reservations split between two or more districts: **0**

Number of Community Villages split between two or more districts: **3**

Number of Community Plans split between two or more districts: **34**

Springboard Scenario 2

Scenario 2 minimizes changes from the existing supervisorial district boundaries (2011) while improving the balance between districts. The biggest change is the northern expansion of district 2 to create a single district that covers the entire eastern portion of the county and the consolidation of district 5 in the northwest. Under this scenario the City of Encinitas is placed within district 5, creating continuity amongst the northern coastal cities. Indian Reservations are preserved within a single district. Except for the City of San Diego and the unincorporated communities of Valley Center and Spring Valley, this scenario does not split cities or unincorporated communities. The border areas are split between district 1 and district 2.

Lemon Grove
National City
San Diego

Number of indian reservations split between two or more districts: **0**

Number of Community Villages split between two or more districts: **1**

Number of Community Plans split between two or more districts: **27**

Springboard Scenario 3

Scenario 3 relies on major arterials as district boundaries, resulting in the division of a number of unincorporated communities, including Rainbow, Ramona, Lakeside, Valle de Oro, and Spring Valley. However, many BIPOC immigrant, refugee, and boarder communities in the southern part of the county are preserved, as are the coastal cities in the northern and central parts of the county. With the exception of the City of San Diego, all cities are maintained within a single district. Many of the neighborhoods in the City of San Diego remain intact with the notable exceptions of Del Mar Mesa and University.

California Statewide Database Adjusted 2015-2019 American Community Survey Citizen Voting-age Population (CVAP) by Race and Ethnicity Special Tabulation. Rounding may lead to summation of percentages not equal to 100% (+/- 1%).

Criteria Specific to the County of San Diego

At least three district shall include unincorporated territory.

Number of districts that include unincorporated territory: **5**

Districts that include unincorporated territory:

District 1
District 2
District 3
District 4
District 5

Two district must be comprised of primarily unincorporated territory.

Number of districts that are primarily unincorporated territory: **3**

Districts that are primarily unincorporated territory:

District 1
District 3
District 5

Division of Communities of Interest (COIs), cities, census designated places, etc.

Number of COIs split between two or more districts: **11**

Number of municipalities split between two or more districts: **2**

Municipalities split between two or more districts:

National City
San Diego

Number of indian reservations split between two or more districts: **0**

Number of Community Villages split between two or more districts: **4**

Number of Community Plans split between two or more districts: **27**

Springboard Scenario 4

Scenario 4 extends district 1 to cover the entire border region, from South San Diego westward across the length of the county. Similarly, district 5 runs west to east and includes the northern cities of Carlsbad, Oceanside, Vista, and San Marcos. Cities along the highway 78 corridor are split between district 3 and district 5. However, all municipalities are maintained within a single district, with the exception of San Diego. Coronado is placed within district 1 while the Point Loma area of San Diego is placed within district 4 along with other coastal neighborhoods in the City of San Diego.

COUNTY OF SAN DIEGO IRC
SOURCE DATA

The source data used within the Community Builder application was provided by the U.S. Census Bureau, County of San Diego SanGIS Regional Data Warehouse Open Data Portal, and California Redistricting Statewide Database. Metadata for each SanGIS data set was gleaned from the GIS Data Warehouse. A list of all the individual data sets is included below.

I.   **U.S. Census Bureau - 2020 Census (P.L. 94-171) Geographic Products (link)**
   a. County
   b. Places
   c. Tracts
   d. Block Groups

II. **County of San Diego SanGIS Regional Data Warehouse (link)**
   a. Municipal Boundaries
      ▪ This layer is used as an overlay to locate and identify municipal jurisdictions for parcels, roads, addresses, and other data layers. This dataset also identifies unincorporated areas of the county. The dataset is updated when SanGIS is notified by the San Diego Local Agency Formation Commission (LAFCO) of a recorded annexation or detachment and as a result of ongoing land-base maintenance activities.
   b. Indian Reservations (Tribal Areas)
      ▪ This dataset consists of polygons representing Indian Reservations in the County of San Diego as documented by the County of San Diego Assessor's Office, Mapping Division. An Indian Reservation is an area of land managed by a native American tribe under the United States Department of the Interior's Bureau of Indian Affairs. The polygons are intended to represent those lands recognized as part of the Indian Nation by the Bureau of Indian Affairs (BIA). The data does not include parcels that may be owned by a Tribe but which are not officially recognized as reservation lands by BIA. Because tribes possess tribal sovereignty, even though it is limited, laws on tribal lands vary from the surrounding area. These laws can permit legal casinos on reservations for example. The tribal council, not the local or federal government, generally has jurisdiction over reservations. Most Indian reservations were established by the federal government. The name "reservation" comes from the conception of the Indian tribes as independent sovereigns at the time of the U.S. Constitution was ratified.
   c. Community Planning Area (Community Plan)
      ▪ Geographic area adopted by the County of San Diego Board of Supervisors reflecting a commonality of interest, topography, access, and normally represented by a planning or sponsor group responsible for advising the County on the Group's perspective of planning issues within the boundary.

    d. Community Planning Area (Community Plan) – San Diego

- Community plan boundaries for the City of San Diego land use policy plans specific to these geographic areas. Land use policies within jurisdictional boundaries have the ability to create a citywide land use and policy document called the General Plan. Many cities in California are small enough that their General Plans are single volumes. Larger cities, such as San Diego, often subdivide the city into a number of community plans, or "mini" land use policy plans for more specific geographic areas.

    e. Community Villages

- These polygons delineate where the rural village and village boundaries are within the unincorporated areas of San Diego County. Village areas are mostly suburban/urban areas generally with densities of 2 dwelling units per acre and greater whereas rural village area are typically historic commercial cores and lesser densities outside of the County Water Authority boundary. This dataset represents the boundaries established by the community groups and County staff and is the proposed dataset for adoption with the County of San Diego's General Plan update.

    f. Community Village Core

- For use with the Traffic Impact Fee Ordinance. They are loosely based on the San Diego Association of Government's (SANDAG) Smart Growth Opportunity Areas and altered based on the General Plan land uses.

III. California Redistricting Statewide Database ([link](#))

    a. SRPREC General Election Precincts

- Geographic boundaries representing 2020 general election voting precincts. SRPREC precincts are a consolidation of Registration (RR) and Voting (SV) precincts.
