As a multiple-award-winning nonpartisan integrity expert, I have only 1 "simple" request: do not allow gerrymandering. Districting must not be politicized in favor of or against any political party. Guiding principles for determining district boundaries should instead give voice to the needs of a particular area. As one example, needs in rural settings are different from needs in urban settings. Make districting decisions that take things like that into account, not ones designed to advantage or disadvantage any political party. Thank you.
