Hello,
As I listened to the meeting tonight, comments were made that comments were coming from Fallbrook that stated this commission was political. I would like to help get the message out that this is not in fact political, but independent. While I understand the political climate we are in and the distrust in many communities of government, I feel it more important than ever to get the message out that this commission is fair and working hard for all. When there is trust and people feel they are being listened to, good changes can be made. I believe those comments come from fear and past experiences. I am here to help spread truthfulness.

Please let me know how I can help.

Thank you again for all you are doing.

Best to you,

Lila MacDonald
