Dear Commission,

As a Ramona resident, I ask that you not divide our community between two districts. This entire region is a treasured part of the invaluable biodiversity of our region, and we need a supervisor who holistically can assess how development will negatively impact our region's ability to weather climate change without catastrophic consequences for the animals, insects, birds, and plants that make this area home. My fear is that a divided district will limit the ability to protect this precious ecosystem for the good of our community.

Thank you,

Patrick Coleman
