Redistricting decision should be in the best interest of ALL communities, especially those that have been overlooked and under represented. The longterm effects of making decisions based on personal interests and diluting the voices of certain communities will not be ignored because there is a completely new generation of voters that has lived through the economic, cultural, and political realites that uninformed and disinterested officials created for us growing up as north country residents; if it is anything that we have learned from the last decade it is that we cannot repeat history and move towards an honest and fair progrssion of the communities we come from and that starts with our civic engagement. Your decisions are NOT being overlooked; Fallbrook residents will hold your decisions accountable.
