Hello,

Map 4 splits our rural Boulevard Planning Area into two separate districts which significantly impacts our already marginalized, disproportionately impacted, and predominantly low-income community.

Please produce and provide the proposed redistricting maps with an overlay of the existing San Diego County backcountry Planning Areas and the Mountain Empire School District boundaries. Mountain Empire District is the largest geographically with probably the fewest students.

These overlays would be helpful for us to make more informed comments.

I have requested a presentation for our November 7th meeting of the Boulevard Planning Group but have not received a confirmation or denial. Please advise.

Regards  
Donna Tisdale, Chair  
Boulevard Planning Group
