Dear County of San Diego Independent Redistricting Commission. My name is Dr. Nina Drammissi. I am past Chair of the Lakeside Chamber of Commerce. We are very concerned that the proposed redistricting map from your commission places our community with communities that do not have similar geography, infrastructure needs, commerce, air quality needs, and industrial and agricultural aspects. Hwy 67 and Interstate 8 are fire escape routes and the only corridors for the transport of goods and services making them vital to our economy. Our area's public safety needs are unique: we share Sheriff's department jurisdiction and a captain with Santee. In addition, health services serving our areas would be impaired. Fire protection and shared resources for protection come from the County and local fire districts. Our local elementary and middle school districts feed into Grossmont Union School District that east county resources from our economic development council support for work force development. Our East County economic center is Santee, Lakeside, El Cajon, and Alpine. Separating our economic sectors is detrimental for job growth which impacts our diverse community and its families. Thank you for your consideration of our community's needs. Respectfully, Nina Drammissi
