Within several versions of the maps shown recently, Maps 1-4, only Map Number 1 keeps the East County Communities served by the Mountain Empire School District (MESD) within one district with the possible exception of the Mt Laguna Community which should also remain within the boundaries of the MESD. While the East County Represents a vast area we are small communities linked together by our schools and social networks. Do not separate us into different Supervisor Districts it would cause too much confusion and communication difficulties within the communities.
